MARYLAND

STATE NORMAL SCHOOL

BALTIMORE.

HE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and re-organized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 10; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 8; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne's, 8; St. Mary's, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective counties. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county is filled, applicants from that county should address the Principal, enclosing a certificate of scholastic qualifications and letter of recommendation from the County Examiner.

Students who are under age, or deficient in scholarship, can enter a Preparatory class on paying the Tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term commences on the first Tuesday in September. The Winter Term commences on the first Thursday in January, and closes on the last Thursday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, September 4th, and former Students desiring a re-examination for promotion, must be present on Wednesday. Classes will be formed and regular recitations begin on Monday, September 10th.

EXPENSES.

Students appointed by the County School Boards or by the Baltimore City Board, are under no expense for tuition, English text-books and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$4.00 to \$5.00 a week; and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

General Review of all Studies.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require two years; and some three years. Students differ very greatly both in natural ability, and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

Emulation and competition are discouraged; and no artificial rewards or punishments are in use. The Dixon Graphite Pencil Company of Jersey City offered a series of prizes to students of Art Schools, Normal Schools and High Schools, and to pupils of Grammar and Primary Schools and Kindergartens, for Drawings executed with the Dixon pencils. Several samples of the ordinary work of this school were forwarded to the examining committee; and the result was that out of eight prizes awarded to Normal Schools this school obtained four, as follows:

MARY F. DEWING, \$25; JENNIE STERLING, \$20; ALETHEA OWINGS, \$15; LUCY E. HUDGINS, \$10.

The main object of the school is to give professional

training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to all who complete the required course, and to no others; but the permanent diploma of the school, which authorizes the holder to teach in any public school in the State, is not given until after one year's successful experience as a teacher. By the courtesy of the Board of Public School Commissioners of Baltimore, graduates of the State Normal School are eligible to appointments in the city schools without examination.

ACADEMIC DEPARTMENT.

The Academic Department, or Model School, will open on Thursday, September 13, and close on the second Thursday in June.

All the grades belonging to Primary, Grammar, and High Schools are represented. There is no extra charge for Latin, Singing, Drawing and Calisthenics. French, German, and Instrumental Music will be taught at Professors' rates.

Fees from \$40 to \$75 a year, payable half-yearly in advance.

STATE NORMAL SCHOOL,

BALTIMORE.

HE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and re-organized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 10; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 8; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne's, 8; St. Mary's, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective counties. The law requires the appointees to be selected "by the several Boards of County School Commissioners".

sioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the Profession of teaching within the State."

When the legal quota from any county is filled, applicants from that county should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the Tuition Fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term commences on the first Tuesday in September. The Winter Term commences on the first Thursday in January, and closes on the last Thursday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New students must be present on Tuesday, September 2nd, and former Students desiring a re-examination for

promotion, must be present on Wednesday. Classes will be formed and regular recitations begin on Monday, September 8th.

EXPENSES.

Students appointed by the County School Boards or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$4.00 to \$5.00 a week; and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

GENERAL REVIEW of all Studies.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all pupils in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require two years; and some three years. Students differ very greatly both in natural ability, and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as a means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to all who complete the required course, and to no others; but the permanent diploma of the school, which authorizes the holder to teach in any public school in the State, is not given until after one year's successful experience as a teacher. By the courtesy of the Board of Public School Commissioners of Baltimore, graduates of the State Normal School are eligible to appointments in the city schools without examination.

ACADEMIC DEPARTMENT.

The Academic Department, or Model School, will open on Monday, September S, and close on the second Thursday in June. All the grades belonging to Primary, Grammar, and High Schools are represented. There is no extra charge for Latin, Singing, Drawing and Calisthenics. French, German, and Instrumental Music will be taught at Professors' rates.

Fees from \$40 to \$75 a year, payable half-yearly in advance.

STATE NORMAL, SCHOOL,

SBALTIMORE €

HE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and re-organized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

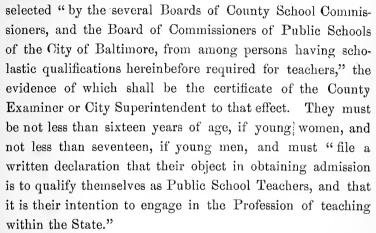

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 10; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 8; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School should make application to the Board of School Commissioners of their respective counties. The law requires the appointees to be

When the legal quota from any county is filled, applicants from that county should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the Tuition Fees.

SESSIONS.

The School year of nine months is divided into two Terms. The fall Term commences on Tuesday, September 8th. The Winter Term commences on the first Tuesday in January, and closes on the first Thursday in June.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, September 8th, and former Students desiring a re-examination for promotion, must be present on Wednesday, September 9th. Classes

will be formed and regular recitations begin on Monday, September 14th.

EXPENSES. .

Students appointed by the County School Boards or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$4.00 to \$5.00 a week; and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

GENERAL REVIEW of all Studies.

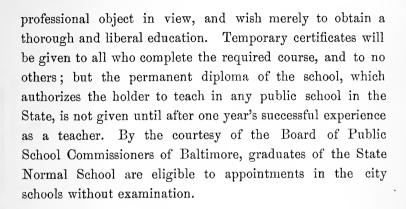

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and perform accurately easy computations in whole numbers and in vulgar and decimal fractions. Young persons who have not received a good primary education, should not expect to obtain it at this school, under the claim that they are training for teachers, but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all pupils in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require two years; and some three years. Students differ very greatly both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend₄ to become teachers, and all the departments of study are considered as a means to this end. But the general course is well adapted to those who have no

ACADEMIC DEPARTMENT.

The Academic Department, or Model School, will open on Monday, September 14th, and close on the second Thursday in June.

All the grades belonging to Primary, Grammar and High Schools are represented. There is no extra charge for Latin, Singing, Drawing and Calisthenics. French, German and Instrumental Music will be taught at Professors' rates.

Fees from \$40 to \$75 a year, payable half-yearly in advance.

HE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 10; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 8; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School should make application to the Board of School Commissioners of their respective counties. The law requires the appointees to be

selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the Profession of teaching within the State."

When the legal quota from any county is filled, applicants from that county should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the Tuition Fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term commences on Tuesday, September 7th. The Winter Term commences on the first Tuesday in January, and closes on the first Friday in June.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, September 7th, and former Students desiring a re-examination for promotion, must be present on Wednesday, September 8th. Classes

will be formed and regular recitations begin on Thursday, September 9th.

EXPENSES

Students appointed by the County School Boards or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$4.00 to \$5.00 a week; and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

GENERAL REVIEW of all Studies.

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and perform accurately easy computations in whole numbers and in vulgar and decimal fractions. Young persons who have not received a good primary education, should not expect to obtain it at this school, under the claim that they are training for teachers, but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all pupils in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require two years; and some three years. Students differ very greatly both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no

professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to all who complete the required course, and to no others; but the permanent diploma of the school, which authorizes the holder to teach in any public school in the State, is not given until after one year's successful experience as a teacher. By the courtesy of the Board of Public School Commissioners of Baltimore, graduates of the State Normal School are eligible to appointments in the city schools without examination.

ACADEMIC DEPARTMENT.

The Academic Department, or Model School, will open on Monday, September 13th, and close on the second Thursday in June.

All the grades belonging to Primary, Grammar and High Schools are represented. There is no extra charge for Latin, Singing, Drawing and Calisthenics. French, German and Instrumental Music will be taught at Professors' rates.

Fees from \$40 to \$75 a year, payable half-yearly in advance.

MARYLAND STATE RORMAL SCHOOL,

BALTIMORE

HE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 10; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 8; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School should make application to the Board of School Commissioners of their respective counties. The law requires the appointees to be

selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the Profession of teaching within the State."

When the legal quota from any county is filled, applicants from that county should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term commences on Tuesday, September 6th. The Winter Term commences on the first Tuesday in January, and closes on the first Friday in June.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, September 6th, and former Students desiring a re-examination for promotion, must be present on Wednesday, September 8th. Classes

will be formed and regular recitations begin on Thursday, September 9th.

EXPENSES

Students appointed by the County School Boards or by the Baltimore City Board, are under no expense, for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$4.00 to \$5.00 a week; and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

GENERAL REVIEW of all Studies.

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly

and rapidly, and perform accurately easy computations in whole numbers and in vulgar and decimal fractions. Young persons who have not received a good primary education, should not expect to obtain it at this school, under the claim that they are training for teachers, but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all pupils in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require two years; and some three years. Students differ very greatly both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school, which authorizes the holder to teach in any public school in

the State, is not given until after one year's successful experience as a teacher.

Maryland State Normal School,

-> BALTIMORE, ---

HE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 10; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 8; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent. 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School should make application to the Board of School Commissioners of their respective counties. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from among persons having Scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the Profession of teaching within the State."

When the legal quota from any county is filled, applicants from that county should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term commences on Tuesday, September 11th. The Winter term commences on the first Thursday in January, and closes on the last Friday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, September 11th and former Students desiring a re-examination for promotion must be present on Thursday, September 13th. Classes

will be formed and regular recitations begin on Monday, September 17th.

EXPENSES.

Students appointed by the County School Boards or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$3.50 to \$4.00 a week; and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

COURSE OF INSTRUCTION.

The course of instruction extends through three years. Graduates of high schools, and certificated teachers, may enter the second year's class without examination; and the third year's class on passing an examination on the studies of the second year.

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and perform accurately easy computations in whole numbers and in vulgar and decimal fractions. Young persons who have not received a good *primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced

class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require three years. Students differ very greatly both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school, which authorizes the holder to teach in any public school in the State, is not given until after one year's successful experience as a teacher.

Maryland State Normal School,

⇒ BALTIMORE. ≰

e..e..e...e

HE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 10; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 8; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8, Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective counties. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men; and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county is filled, applicants from that county should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuiton fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term commences on Tuesday, September 10th. The Winter Term commences on the first Thursday in January, and closes on the last Friday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New students must be present on Tuesday, September 10th, and former Students desiring a re-examination for promotion must be present on Wednesday, September 11th. Classes will be formed and regular recitations begin on Monday, September 16th.

EXPENSES.

Students appointed by the County School Boards or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$3.50 to \$4.00 a week; and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

GOURSE OF INSTRUCTION.

*ে:জ:জ:জ:জ:*ঞ

The course of instruction extends through three years, Graduates of high schools, and certificated teachers, may enter the second year's class without examination; and the third year's class on passing an examination on the studies of the second year.

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and perform accurately easy computations in whole numbers and in vulgar and decimal fractions. Young persons who have not received a good *primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require three years. Students differ very greatly both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

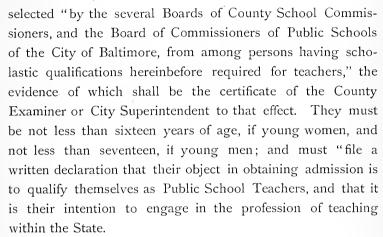

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 10; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 8; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8: Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective counties. The law requires the appointees to be

When the legal quota from any county is filled, applicants from that county should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term commences on Tuesday, September 9th. The Winter Term commences on the first Monday in January, and closes on the last Friday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New students must be present on Tuesday, September oth, and former Students desiring a re-examination for

promotion must be present on Wednesday, September 10th. Classes will be formed and regular recitations begin on Monday, September 15th.

EXPENSES.

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$3.50 to \$4.00 a week; and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the eandidate should be able to read fluently, spell correctly, write legibly and rapidly, and perform accurately easy computations in whole numbers and in vulgar and decimal fractions. Young persons who have not received a good *primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional

training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school, which authorizes the holder to teach in any public school in the State, is not given until after one year's successful experience as a teacher.

Professor Newell retires from the Principalship on the 31st of July. After that date address

Maryland State Normal School, o- BALTIMORE. —

<u>-⊡⊡</u>

HE · MARYLAND · STATE · NORMAL · SCHOOL, :: established by the School Law of 1865, and re-organized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14: Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 6; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective

counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State.

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term, of 1891-92 commences on Tuesday, September 8th. The Winter Term commences on the first Monday in January, and closes on the last Friday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect. New students must be present on Tuesday, Sept. 8th, and former Students desiring a re-examination for promotion must be present on Wednesday, September 9th. Classes will be formed and regular recitations begin on Monday, Sept. 14th.

EXPENSES.

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own textbooks." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$3.50 to \$4.00 a week and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

COURSE OF INSTRUCTIONS.

The course of instruction extends through three years. Candidates for admission, may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

SINGING, DRAWING AND PHYSICAL TRAINING, are taught in every Term except the last; also Sewing (to women), and Military Tactics and the use of Wood-working Tools (to men.)

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Frimary* education, should not expect to obtain it at this school, under the claim that they are training for teachers: but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a

definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school, which authorizes the holder to teach in any public school in the State, is not given until after one year's successful experience as a teacher.

Maryland State Normal School,

⊙— BALTIMORE. —⊙

5.00000

HE · MARYLAND · STATE · NORMAL · SCHOOL, :: established by the School Law of 1865, and re-organized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 6; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective

counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the city of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS,

The School year of nine months is divided into two Terms. The Fall Term, of 1892-93 commences on Tuesday, September 6th. The Winter Term commences on the first Wednesday in January and closes on the first Thursday in June.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time, unless previous arrangements have been made with the Principal to that effect.

New students must be present on Tuesday, Sept. 6th, and former Students desiring a re-examination for promotion must be present on Wednesday, September 7th. Classes will be formed and regular recitations begin on Tuesday, Sept. 13th.

EXPENSES.

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own textbooks." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$3.50 to \$4.00 a week and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

The course of instruction extends through three years Candidates for admission, may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Frimary* education, should not expect to obtain it at this school, under the claim

that they are training for teachers: but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school which authorizes the holder to teach in any public school in the state is not given until after one year's successful experience as a teacher.

IN - MEMORIAM.

Professor George L. Smith died at Harrisburg, Pa., June 25th, 1892, from injuries received, that day, in a railroad collision.

Professor Smith was a native of Canandaigua, N. Y. He was educated at the Academy in that town, and at Cornell University, where, after graduating, he took a post-graduate course in Science. He also took several special courses at Johns Hopkins University.

He was a contributor to several Educational and Scientific Journals, and had long been engaged in preparing for publication, a manual of laboratory work in Physics and Chemistry. He was President of a Botany Club, Secretary of the Photographic Society of Baltimore, and Curator of the Maryland Academy of Science.

His chief life work was done, as Professor of Natural Sciences and Drawing in the Maryland State Normal School, to which position he was elected in 1874, and in which he continued during life.

This position gave him an official relation to the Public School System of Maryland, and he attended very many Teachers' Institutes throughout the State as Instructor, especially, in Botany and Drawing. He was a member of the State Teachers' Association, and usually attended its Annual Meetings.

His fine natural endowments, cultivated by lifelong study and investigation, his broad and accurate scholarship, his aptness to teach, his long experience, his devotion to his profession, his genial disposition, gentle manners, and refined tastes, his exalted estimate of duty, his high character and pure life, rank him not only as the ideal teacher, but as the perfect gentleman, the loved and cherished friend, and the true christian.

To the Faculty and Students of this School, his loss is irreparable, and he will be sadly missed by them, and by his many friends of this City and State.

Professor Smith was Superintendent of the Sunday School of Christ Church, and its Rector, Rev. C. George Currie, conducted his funeral services, and paid a high tribute to his christian character and useful career.

Surrounded by his relatives and friends, he was laid to rest in the beautiful cemetery of his native village, with the Divine assurance—"Blessed are the dead who die in the Lord."

Maryland State Normal School,

⊙— BALTIMORE. —⊙

~00000**•**

HE 'MARYLAND . STATE . NORMAL · SCHOOL, :: established by the School Law of 1865, and re-organized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 6; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respec-

tive counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the city of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term, of 1893-94 commences on Tuesday, September 12th. The Winter Term commences on the first Wednesday in January and closes on the second Friday in June.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, and not at any other time,

unless previous arrangements have been made with the Principal to that effect.

New students must be present on Tuesday, Sept. 12th, and former students desiring a re-examination for promotion must be present on Wednesday, September 13th. Classes will be formed and regular recitations begin on Monday, Sept. 18th.

EXPENSES.

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and school stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from \$3.50 to \$4.00 a week and within half an hour's walk, at \$3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

COURSE OF INSTRUCTION.

○.00000₩00000**0**

The course of instruction extends through three years. Candidates for admission, may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

Observation of actual teaching, in both Normal and Model Schools, with notes thereon is required of every class.

SINGING, DRAWING AND PHYSICAL TRAINING, are taught in every Term except the last, also sewing (to women), and Military Tactics and the use of Wood-working Tools (to men.)

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will be made for earnest and diligent students who will exert

themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school which authorizes the holder to teach in any public school in the state is not given until after one year's successful experience as a teacher.
